“An Ounce of Prevention is Worth a Pound of Cure”

**Mission Road Animal Clinic-
Striving to provide the very best!**

At Mission Road Animal Clinic, we are proud of the services we provide, and are constantly striving to meet your pets' needs. To that end, we are now offering PET I.D. CARDS. The plastic I.D. card is the size of a credit card, and contains your pets' name, picture, allergies (if applicable), vaccination and examination dates, and all of Mission Road Animal Clinic's contact information. This convenient card serves as a reminder for owners to update their pets' preventative care, as well as proof of vaccinations when boarding and/or grooming. Our goal is to make keeping your pet healthy easy for you! Order a \$5.00 card for each of your pets today and e-mail us a jpeg picture, then receive them in your mailbox within 1-2 weeks! It's that simple!

HEARTWORM PREVENTATIVE IS ESSENTIAL!

If your pet is currently not on heartworm medication, we are offering a \$15 off testing and a 6-month supply of Sentinel or Interceptor during April & May. For those that are current on testing and need more medication, we are offering a \$5 discount on a refill during April & May with mention of this newsletter.
(Pets must be current on Annual Wellness Exam)
